

EMERALD TEST™

INTER-LABORATORY COMPARISON PROFICIENCY TEST

June 1, 2024

Analytical Food Laboratories
Grand Prairie, Texas

Attn: Tiffany Williams

Dear Tiffany,

Congratulations on your lab's performance in the Spring 2024 Emerald Test ILC/PT program!

Based on the scoring methodology approved by the Emerald Test Advisory Panel, your lab has been issued Emerald Badge for the following proficiency test(s):

- 7 Part Potency in Gummy
- 7 Part Heavy Metals in Hemp Bud
- Moisture in Cannabis

Emerald Test Badges, which may be used on websites and email campaigns, as well as digital and print marketing, demonstrate not only your labs' skill in cannabis testing, but also your commitment to good science in the cannabis industry. The Emerald Test Badge does not imply regulatory compliance or laboratory accreditation. Licensing for use of any Emerald Badge award expires after one year. Alteration or misrepresentation of the badge will void the award and jeopardize future participation in the Emerald Test.

If you have any questions, please contact me at Kirsten@EmeraldScientific.com.

Again, congratulations, and thank you for participating in the Emerald Test.

Sincerely,

Kirsten Blake
President
